Meat Snacks Short Course

February 24-26, 2026

This short course takes a comprehensive approach to understanding meat snacks, focusing on jerky, bars, and snack sticks. Participants will learn about the science, safety, and production behind this category of products from a group of nationally and internationally recognized authorities in their fields.

To facilitate a stronger understanding of topics discussed, laboratory demonstrations will be held in the state-of-the-art Meat Science & Animal Biologics Discovery building to reinforce important concepts discussed in the classroom.

Processors from every level of experience can benefit from this program with content focused on those interested in, or currently involved in, the meat snack industry.
